Nutrition For Life

**You're there for them.  
We're here for you.**

**Improving lives in more than 20 countries and still growing**

- For more and more mothers and babies around the world, Ronesca Nutrition is helping healthcare professionals to make life happier and healthier. In Europe, Africa, Asia and North America we continue to put you and those you care for at the center of everything we do.

**The widest range**

- And because our role is to support you the professional, our products do more than just meet the needs of infants of different ages. The Ronesca Nutrition range is comprehensive, with formulas designed for those babies with specific digestive disorders who need specific feeding solutions.
- Whether the problem is colic, regurgitation, constipation, diarrhea, lactose intolerance, malnutrition or even risk of atopic disease, we can help you provide an answer.

 Eccelada Picky eating/ malnutrition	 Ronesca RTF Premature 24 cal	 Ronesca RTF Premature 30 cal	

**WHO recommendation**  
The World Health Organisation recommends exclusive breastfeeding during the first 6 months and continued breastfeeding for as long as possible. Health professionals should advise the mother on the appropriate time for her baby to start receiving complementary foods. Ronesca encourages mothers to exclusively feed for the first 6 months of her baby's life.

Ronesca and the 'R' device are trade marks of Ronesca Nutrition  
Ronesca Nutrition, Paris - France, 29 Boulevard de la République, 93130 Noisy-Le-Sec

**Ronesca®** are experts in nurturing families. We are a French company with a comprehensive range of products, and have manufacturing plants in France, Germany and the USA.

We aspire to expand our reach with selective partners to new territories, and grow our quality offerings to new Consumer categories. Passion and ambition are our drivers.

Ronesca® maintains world class standards with products and processes conforming to ESPGHAN, FDA, CODEX, SASO, ISO9001. Ronesca products are guaranteed to be free from any Genetically Modified Organisms or ingredients. Good Manufacturing Practices (GMP) are observed and Hazard Analysis and Critical Control Points (HACCP) standards maintained throughout our factories. Ingredients are sourced only from accredited suppliers and materials are inspected at every stage with packing performed under a high-hygiene environment.

We test each batch of our products and have a network of independent laboratories to double-check our own QA. Each product that leaves our factories has a code that identifies the batch and key information right down to the farm that the original milk came from. Quality control also includes taste testing - we want Ronesca milks to be acceptable to babies - tasting good as well as being of the highest quality.
